

FIXED RETURN INLET FITTING

CMP 25560

THIS FIXED RETURN INLET FITTING IS TO BE USED IN A 1-1/2" NPT FITTING TO RETURN WATER UNDER PRESSURE TO THE POOL OR SPA (PRESSURE SIDE OF PUMP).

Basic safety precautions should always be followed. Read and follow all instructions. Failure to follow these instructions can cause severe injury or death.

WARNING - SUCTION ENTRAPMENT HAZARD

Fixed Return Inlet Fitting must **never** be used in a suction outlet system to transfer water from the pool or spa (suction side of the pump). Suction in suction outlets and/or suction outlet covers which are damaged, broken, cracked, missing, or unsecured can cause severe injury or death due to the following entrapment hazards:

Hair Entrapment: Hair becomes knotted or snagged in an outlet cover.

Limb Entrapment: A limb inserted or sucked into an opening of a circulation outlet with a broken or missing cover resulting in mechanical bind or swelling.

Body Entrapment: Suction applied to a large portion of the body or limbs resulting in an entrapment.

Disembowelment Entrapment: Suction applied to the intestines through an unprotected sump or suction outlet with a missing or broken cover.

Mechanical Entrapment: Potential for jewelry, swimsuit, hair decorations, finger, toe, or knuckle to be caught in an opening of an outlet or cover.
