

M2 Microphone Quick Reference

The M2 family of microphones for CTS start systems are ergonomically designed for comfortable and intuitive use. Features Include two conveniently located start buttons on the top of the microphone for ease of operation for right- and left-handed users and a quiet push-to-talk switch.

Operation

- Plug the ¼" jack from the microphone cable into the microphone input of the start system.

- Use the Push-to-Talk (PTT) switch located on the left side of the microphone to use the unit as a microphone. For best results, the microphone should be held close to the user's mouth.
- Depress the PTT switch and either of the Start Buttons located on the top of the microphone to initiate a start or signal a recall. Either of the two start buttons can be used to operate either function.
