

Xtreme™ ESTATE PLUS

When combined with the proper winterizing program, the Estate Plus Xtreme™ Solid Winter Cover will protect your pool from the wear and tear of freezing winter weather and eliminate costly maintenance and spring cleanup.

Mesh Core

The interwoven mesh core is the most important component of the fabric. The Xtreme Cover is carbon loaded with a genuine 14 x 14 scrim count and 1.6 oz. weave to create the strongest cover in the industry.

2.0 Mil Coatings

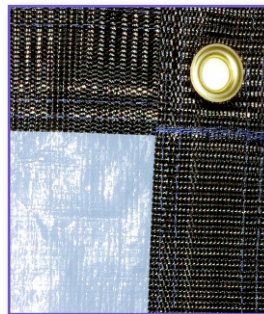

The poly coatings protect the woven core from abrasion and extreme elements. High quality laminated and UV stabilized coatings protect it from intense sunny days in the fall and spring, and subfreezing temps in the winter. Superior life extending UV inhibitors in the coatings are a must.

Heat Welded Seams

Seams are roll heat-sealed under high pressure. With a 1 1/2" weld overlap, they won't give way under the heavy load of wet leaves and heavy winter snow.

Specifications

- WEAVE:** 14 x 14
- BINDING:** Above Ground Covers - 1 1/2" / Inground Covers - 2"
- COLOR:** Glacier Blue
- GROMMETS:** Brass
- WARRANTY:** 20 Yr Limited / 3 Yr Full
- OVERLAP:** Above Ground Covers - 4' Overlap / Inground Cover - 5' Overlap

Perimeter Binding & Grommets

The Xtreme Cover is designed to withstand the brutality of winter without damage. Reinforced binding adds additional strength and durability to help withstand the effects of wind and winter snow loads.

20 Year Warranty

We stand behind the warranty because this cover stands up to the task. **20 year warranty** - 3 years full, remaining 17 years prorated. See warranty card for details.
