

BrightLine

FILTER MEDIA

THE BENEFITS ARE CLEAR.

Clearer, Cleaner Water

Brightline™ quickly and efficiently removes particles as fine as 5 microns

Longer Lasting

Since BrightLine does not breakdown like typical sand filter media, it can last up to 3 times longer

Backwash Savings

Because BrightLine utilizes the entire filter bed and does not pack or channel, backwashing takes less time and is required less frequently, saving water and chemicals

Less Media Required

BrightLine is 20% less dense than typical sand filter media, requiring less media to fill the same space

Environmentally Friendly

BrightLine is made from 100% recycled materials

Available in 40 lb. clear, plastic bags.

For use in sand filters including those which specify #20 silica sand.
