

POOL & SPA STOP LEAK INSTRUCTIONS

1. Remove filter grids or cartridges from filter.
2. Fill spa, hot tub, or pool to proper level.
3. **WITH PUMP OPERATING, SLOWLY ADD 16 OZ. OF POOL & SPA STOP LEAK** to skimmer or as close to main drain outlet as possible.
4. Operate pump for at least ten (10) hours. **DO NOT TURN ON HEATER OR AIR BLOWER.**
5. Refill pool or spa to proper level and let stand long enough to determine if leak has been stopped.
6. Repeat if necessary.
7. Resume use of pool or spa after proper chemical balance has been achieved.

Note: Although field tested and proven effective for the repair of minor leaks, neither Pentair Water Pool and Spa, Inc., or its agents can guarantee the performance of this product or assume any liability for its use.

PRECAUTIONARY STATEMENTS: Causes skin and eye irritation. Do not get in eyes or on skin. May be harmful if swallowed. May be harmful if inhaled.
