

# SAFETY DATA SHEET

1. Identification		
Product identifier	Calcium Buffer	
Product code	R-0010	
Recommended use	Use as directed by manufacture	er for purposes directly related to water testing.
Recommended restrictions	None known	
Manufacturer/Importer/Supplier/D	istributor information	
Manufacturer		
Company name	Taylor Technologies, Inc.	
Address	31 Loveton Circle	
	Sparks, MD 21152	
	United States	
Telephone	(410) 472-4340	Monday–Friday, 8:00 a.m.–4:30 p.m.
Website	www.taylortechnologies.com	
E-mail	Not available	
Emergency phone number	(800) 837-8548	

# 2. Hazard(s) identification

Physical hazards	Corrosive to metals	Category 1
Health hazards	Eye damage/irritation	Category 1
	Skin corrosion/irritation	Category 1B
Environmental hazards	Not currently regulated by OSHA; r	efer to section 12 of the SDS for additional information.
Label elements		

Signal word	Danger		
Hazard statement	May be corrosive to metals. Causes severe skin burns and eye damage.		
Precautionary statement			
Prevention	Keep only in original container. Wear protective gloves/protective clothing/eye protection/face protection. Do not breathe mist or vapor. Wash thoroughly after handling.		
Response	Absorb spillage to prevent damage.		
	IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.		
	IF ON SKIN (OR HAIR): Take off immediately all contaminated clothing. Rinse skin with water.		
	Wash contaminated clothing before reuse.		
	IF INHALED: Remove person to fresh air and keep comfortable for breathing.		
	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.		
	Immediately call a physician or poison control center.		
Storage	Store locked up.		
Disposal	None		
Hazard(s) not otherwise classifie	ed None		
Supplemental information	None		

# 3. Composition/information on ingredients

## Mixtures

Mixtures			
Chemical name	Common name and synonyms	CAS number	%
Deionized water	Dihydrogen oxide	7732-18-5	95–99
Sodium hydroxide	Caustic soda; Lye; Soda lye; Caustic soda solution; Soda lye solution	1310-73-2	0.1–5
4. First-aid measures			
Inhalation	Move to fresh air. Give oxygen or artificial respiration if needed. Get medical attention immediately.		
Skin contact	Immediately flush skin with running water for at least 20 minutes. Immediately take off all contaminated clothing. Call a physician or poison control center immediately. Chemical burns must be treated by a physician. Wash contaminated clothing before reuse.		
Eye contact	Immediately flush eyes with plenty of water for at least 20 minutes. Remove contact lenses if present and easy to do. Continue rinsing. Call a physician or poison control center immediately.		
Ingestion	Call a physician or poison control center immediately. Rinse mouth. Never give anything by mouth to a person who is unconscious or is having convulsions. Do NOT induce vomiting unless directed by physician. If vomiting occurs, keep head low so that stomach content does not get into the lungs.		
Most important symptoms/effects, acute and delayed	Direct skin contact may cause corrosive skin burns, deep ulcerations, and possibly		e eyes and may cause
	Inhalation of mists can cause severe respirate choking, and wheezing. Inhalation could resu Symptoms of pulmonary edema (chest pain,	It in pulmonary edema (fluid a	accumulation).
	Ingestion may produce burns to the lips, oral digestive tract. Symptoms may include abdor		
Indication of immediate	Provide general supportive measures and tre	at symptomatically.	
medical attention and special treatment needed	Chemical burns: Flush with water immediatel adhere to affected area. Call an ambulance. person under observation. Symptoms may be	Continue flushing during trans

5. Firefighting measures			
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carb	on dioxide.	
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.		
Specific hazards arising from the chemical	During fire, gases hazardous to health may b	e formed.	
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full p	rotective clothing must be wo	rn in case of fire.
Firefighting equipment/instructions	Firefighters should wear full protective gear. It to avoid exposure to combustion products. Converter inside container. Move containers from extinguishing water from contaminating surface	ool containers/tanks with wate fire area if it can be done wit	er spray. Do not get hout risk. Prevent fire-
Specific methods	Use standard firefighting procedures and con	sider the hazards of other inv	olved materials.
General fire hazards	Not combustible; however, the product can re hydrogen gas.	eact with metals to form flamn	nable and explosive
Hazardous combustion products	Sodium oxides. Other irritating fumes and sm	oke.	

## 6. Accidental release measures

6. Accidental release meas	sures
Personal precautions, protective equipment, and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during cleanup. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protective equipment, refer to section 8 of the SDS.
Methods and materials for	This product is miscible in water.
containment and cleaning up	Large Spills: Dike the spilled material where this is possible. Stop leak if it can be done without risk. Absorb spillage to prevent material damage. Absorb in vermiculite, dry sand or earth, and place into containers. Prevent entry into waterways, sewer, basements, or confined areas. Following product recovery, flush area with water.
	Small Spills: Absorb spillage with noncombustible, absorbent material. Clean surface thoroughly to remove residual contamination.
	Never return spills to original containers for reuse. For waste disposal, refer to section 13 of the SDS. Dilute base with water and neutralize with dilute acid. If not recoverable, dilute with water or flush to holding area and neutralize. Contaminated absorbent material may pose the same hazards as the spilled product.
	In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.
Environmental precautions	Avoid discharge into drains, watercourses, or onto the ground.
7. Handling and storage	
Precautions for safe handling	Do not breathe mist or vapor. Do not get in eyes, on skin, or on clothing. Do not taste or swallow. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. For personal protective equipment, refer to section 8 of the SDS. Keep away from metals and other incompatibles. Observe good industrial hygiene practices. Label containers appropriately.
Conditions for safe storage, including any incompatibilities	Store locked up. Store in corrosive-resistant container with a corrosive-resistant inner liner. Store in original tightly closed container. Keep only in the original container. Store in a cool, dry place out of direct sunlight. Store away from incompatible materials (refer to section 10 of the SDS).

# 8. Exposure controls/personal protection

## **Occupational exposure limits**

# U.S. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Туре	Value	Form
Sodium hydroxide (CAS 1310-	73-2) PEL	2 mg/m <sup>3</sup>	Not applicable
U.S. ACGIH Threshold Limit	Values		
Components	Туре	Value	Form
Sodium hydroxide (CAS 1310-	73-2) Ceiling	2 mg/m <sup>3</sup>	Not applicable
U.S. NIOSH: Pocket Guide to	Chemical Hazards		
Components	Туре	Value	Form
Sodium hydroxide (CA 1310-73	B-2) Ceiling	2 mg/m <sup>3</sup>	Not applicable
Biological limit values	No biological exposure limits note	d for the ingredient(s)	
Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eyewash facilities and emergency shower must be available when handling this product.		
Individual protection measures, such as personal protective equipment			
Eye/face protection	Wear safety glasses with side shie eyewash fountain and quick-drend		
Skin protection			
Hand protection	Wear appropriate chemical-resista	ant gloves. Advice should be so	ught from glove suppliers.
Other	Wear appropriate chemical-resista	ant clothing.	
Respiratory protection	In case of insufficient ventilation, v approved respirator if there is a ris limits. Advice should be sought fro	vear suitable respiratory equipr sk of exposure to dust/fumes at	levels exceeding the exposure

Thermal hazardsWhen necessary, wear appropriate thermal protective clothing.General hygiene<br/>considerationsAlways observe good personal hygiene measures, such as washing after handling the material<br/>and before eating, drinking and/or smoking. Routinely wash work clothing and protective<br/>equipment to remove contamination.

# 9. Physical and chemical properties

5. Physical and chemical p	lopenties
Appearance	
Physical state	Liquid
Form	Liquid
Color	Clear colorless or nearly colorless
Odor	Odorless
Odor threshold	Not available
рН	13.1
Melting point/freezing point	Not available
Initial boiling point and boiling range	230°F (110°C)
Flash point	Not applicable (does not burn)
Evaporation rate	Not available
Flammability (solid, gas)	Not applicable
Upper/lower flammability or explosive limits	
Flammability limit, lower (%)	Not applicable
Flammability limit, upper (%)	Not applicable
Explosive limit, lower (%)	Not applicable
Explosive limit, upper (%)	Not applicable
Vapor pressure	17 mm Hg
Vapor density	0.6
Relative density	1.20 g/cm <sup>3</sup>
Solubility(ies)	
Solubility (water)	Soluble in all proportions
Partition coefficient (n-octanol/water)	Not available
Auto-ignition temperature	Not applicable
Decomposition temperature	Not available
Viscosity	Not available
Other information	
Explosive properties	Not applicable
Oxidizing properties	Not applicable
Percent volatile	98%
Specific gravity	1.20

# 10. Stability and reactivity

Reactivity	This product is stable and nonreactive under normal conditions of use, storage, and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use. This product may react with oxidizing agents.
Conditions to avoid	Contact with incompatible materials. Do not use in areas without adequate ventilation.
Incompatible materials	Metal compounds. Nitromethane. Oxidizing agents. Strong acids. Sugars.

Hazardous decomposition products

# 11. Toxicological information

Information on likely routes of ex	kposure		
Inhalation	May cause irritation to the respiratory system		
Skin contact	Causes severe skin burns		
Eye contact	Causes serious eye damage		
Ingestion	Causes digestive tract burns		
Most important symptoms/effects, acute and delayed	Direct skin contact may cause corrosive skin burns, deep ulcerations, and possibly permanent scarring. Direct contact with concentrated solutions may be corrosive to the eyes and may cause severe damage, including blindness. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.		
	Inhalation of mists can cause severe respirator choking, and wheezing. Inhalation could result Symptoms of pulmonary edema (chest pain, sl	in pulmonary edema (fluid accumulation).	
		avity, upper airway, esophagus, and possibly the nain, vomiting, burns, perforations, bleeding.	
Acute toxicity	This product is not classified as an acute toxici acute toxicity data.	ty hazard. See below for individual ingredient

Serious eye damage/eye irritation	Causes serious eye damage		
Respiratory sensitization	Not expected to be a respiratory sensitizer		
Skin sensitization	Not expected to be a skin sensitizer		
Germ cell mutagenicity	Not expected to be mutagenic		
Carcinogenicity	This product is not considered to be a carcinog	en by IARC, NTP, OSHA or U.S. ACGIH.	
OSHA Specifically Regulated	d Substances (29 CFR 1910.1001-1096)		
Not regulated			
Reproductive toxicity	This product is not expected to cause reproduc	ctive or developmental effects.	
Specific target organ toxicity, single exposure	Not classified as a specific target organ toxicity	v – single exposure	
Specific target organ toxicity, repeated exposure	Not classified as a specific target organ toxicity	<ul> <li>repeated exposure</li> </ul>	
Aspiration toxicity	Not expected to be an aspiration hazard		
Chronic effects	Frequent or prolonged contact may defat and o	dry the skin, leading to discomfort and dermatitis.	

# 12. Ecological information

This product is not classified as environmentally hazardous; however, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

		8 8
Components	Species	Test Results
Sodium hydroxide (CAS 1310-73	8-2) – Aquatic	
Acute		
Crustacea		
EC <sub>50</sub>	Water flea (Daphnia magna)	40 mg/L, 48 hours
Persistence and degradability	Not available	
Bioaccumulative potential	Not available	
Mobility in soil	Not available	
Other adverse effects		(e.g., ozone depletion, photochemical ozone creation arming potential) are expected from this component.

# 13. Disposal considerations

Disposal instructions	Collect and reclaim or dispose of in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.
Local disposal regulations	Dispose of in accordance with all applicable regulations.
Hazardous waste code	The waste code should be assigned in discussion with the user, the producer, and the waste disposal company.
Waste from residues/unused products	Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (refer to Disposal instructions).
Contaminated packaging	Empty containers should be taken to an approved waste-handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.

## 15. Regulatory information

U.S. federal regulations

This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

All components are on the U.S. EPA TSCA Inventory list.

#### TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated

#### CERCLA Hazardous Substance (40 CFR 302.4)

Sodium hydroxide (CAS 1310-73-2)

#### SARA 304 Emergency Release Notification

Not regulated OSHA Specifically Regulated Substances (29 CFR 1910.1001-1096)

## Not regulated

#### Superfund Amendments and Reauthorization Act of 1986 (SARA) Hazard categories Immediate hazard – yes

Immediate hazard – yes Delayed hazard – no Fire hazard – no Pressure hazard – no Reactivity hazard – yes

# SARA 302 Extremely Hazardous Substance

Not regulated

#### SARA 311/312 Hazardous Chemical

Not regulated

SARA 313 (TRI reporting)

Not regulated

## Other federal regulations

Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs)

## Not regulated

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

Not regulated

## Safe Drinking Water Act (SDWA)

Not regulated

## U.S. state regulations

## California Controlled Substances. CA Department of Justice (California Health and Safety Code Section 11100)

Not regulated

- Massachusetts Right-to-Know Act
  - Sodium hydroxide (CAS 1310-73-2)
- New Jersey Worker and Community Right-to-Know Act
- Sodium hydroxide (CAS 1310-73-2)

## Pennsylvania Worker and Community Right-to-Know Act

Sodium hydroxide (CAS 1310-73-2)

## Rhode Island Right-to-Know Act

Sodium hydroxide (CAS 1310-73-2)

## **California Proposition 65**

California Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): This material is not known to contain any chemicals currently listed as carcinogens or reproductive toxins.

#### International inventories

Country(ies) or region	Inventory name	On inventory (yes/no)*
Australia	Australian Inventory of Chemical Substances (AICS)	yes
Canada	Domestic Substances List (DSL)	yes
Canada	Non-Domestic Substances List (NDSL)	no
China	Inventory of Existing Chemical Substances Produced or Imported in China (IECSC)	yes
Europe	European Inventory of Existing Commercial Chemical Substances (EINECS)	yes
Europe	European List of Notified Chemical Substances (ELINCS)	no
Japan	Existing and New Chemical Substances (ENCS)	yes
Korea	Existing Chemicals List (ECL)	yes
