

SAFETY DATA SHEET

According to 29 CFR 1910.1200 Hazard Communication Standard 2012 (HazCom 2012)

SECTION 1: Identification

Product identifier	
Product name	Potassium Iodide Crystals
Product number	R-0765; R-0765-PL
Recommended use and restrictions	To be used in accordance with manufacturer instructions or under the direct guidance of the manufacturer.
Manufacturer	Taylor Technologies, Inc. 31 Loveton Circle Sparks, MD 21152 Phone: (410) 472-4340 Emergency phone: (800) 837-8548
SECTION 2: Hazard(s) id	lentification

S

Physical hazards	No data available
Health hazards	No data available
Environmental hazards	No data available
Label elements Hazard pictograms	No data available
Signal word	No data available
Hazard statements	No data available
Precautionary statements	
Prevention	No data available
Response	No data available
Storage	Keep tightly capped. Store out of direct sunlight between 36°F–85°F.
Disposal	No data available
Hazards not otherwise classified	Avoid contact with skin, eyes, or clothing. For contact with skin or eyes, flush 20 minutes with water. If ingested, contact physician or local poison control center. Treat symptoms as needed.

SECTION 3: Composition/information on ingredients

Substance			
Chemical name	Common name and synonyms	CAS number	%
Potassium iodide	Not available	7681-11-0	100
SECTION 4: First-aid	measures		

If inhaled

Ģ

Substance

Remove individual to fresh air. Seek medical attention if breathing becomes difficult or if respiratory irritation develops. Give oxygen or artificial respiration if needed.

In case of skin contact

Immediately flush skin with plenty of water for at least 20 minutes. If clothing comes in contact with the product, the clothing should be removed and laundered before reuse. Seek medical attention if irritation develops.

In case of eye contact

Immediately flush eyes with plenty of water for at least 20 minutes. Remove contact lenses if present and easy to do. Continue rinsing. If symptoms persist or in all cases of concern, seek medical advice.

If swallowed

Rinse mouth. Never give anything by mouth to a person who is unconscious or is having convulsions. Do NOT induce vomiting unless directed by physician. If vomiting occurs, keep head low so that stomach content does not get into the lungs. If symptoms persist or in all cases of concern, seek medical advice.

Most important symptoms and effects, both acute and delayed

Refer to section 2 and/or section 11 of the SDS for the most important known symptoms and effects.

Indication of any immediate medical attention and special treatment needed

Provide general supportive measures and treat symptomatically.

Ensure medical personnel are aware of the material(s) involved and take precautions to protect themselves.

SECTION 5: Firefighting measures Extinguishing media Suitable extinguishing media Use extinguishing media appropriate for surrounding fire. Unsuitable extinguishing Do not use a heavy water stream. Use of heavy stream of water may spread fire. media Specific hazards arising from the substance or mixture Fire hazard Not flammable Explosion hazard Not explosive Reactivity Hazardous reactions will not occur under normal conditions. Hazardous combustion Dipotassium oxide, hydrogen iodide, iodine, and nitrogen oxides products Advice for firefighters Precautionary measures Exercise caution when fighting any chemical fire; hazardous fumes will be present. Firefighting Use water spray or fog for cooling exposed containers. equipment/instructions Protection during firefighting Do not enter fire area without proper protective equipment, including respiratory protection. Other information Refer to section 9 of the SDS for flammability properties.

SECTION 6: Accidental release measures

Personal precautions, protective equipment, and emergency procedures

Wear appropriate protective equipment and clothing during cleanup. Local authorities should be advised if significant spillages cannot be contained. For personal protective equipment, refer to section 8 of the SDS.

Environmental precautions

Avoid discharge into drains, watercourses, or onto the ground.

Methods and material for containment and cleaning up

Sweep up or vacuum up spillage and collect in suitable container for later disposal. Never return spills to original containers for reuse. In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.

Reference to other sections

For exposure controls and personal protection, refer to section 8 of the SDS. For waste disposal, refer to section 13 of the SDS.

SECTION 7: Handling and storage

Personal precautions, protective equipment, and emergency procedures

Do not get in eyes, on skin, or on clothing. Do not taste or swallow. Avoid prolonged exposure. Wear appropriate personal protective equipment. For personal protective equipment, refer to section 8 of the SDS. Keep away from incompatibles. Observe good industrial hygiene practices. Label containers appropriately.

Conditions for safe storage, including any incompatibilities

Keep tightly capped. Store out of direct sunlight between 36°F-85°F. Store away from incompatible materials (refer to section 10 of the SDS).

SECTION 8: Exposure controls/personal protection

Occupational exposure limits

NIOSH: Pocket Guide to Chemical Hazards

Components		Туре	Value	Form
Potassium iodide (CAS 768	31-11-0)	TŴA	0.01 ppm	Inhalable fraction and vapor
Biological limit values	No biological exp	osure limits noted for th	e ingredient(s)	
Exposure controls				
Appropriate engineering controls	be matched to co engineering cont limits have not be	onditions. If applicable, u rols to maintain airborne een established, maintai	se process enclosures, lo levels below recommend	d be used. Ventilation rates shou ocal exhaust ventilation, or other ded exposure limits. If exposure cceptable level. Eyewash facilities duct.
Personal protective equipment				
Eye/face protection	Wear appropriate	e chemical safety goggle	es if contact is likely to oc	cur.
Skin protection	Wear appropriate	e chemical-resistant glov	ves and clothing if contact	t is likely to occur.
Body protection	Wear appropriate	e protective clothing.		

In case of insufficient ventilation, wear suitable respiratory equipment. Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fumes at levels exceeding the exposure limits. Advice should be sought from respiratory protection suppliers.

SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties Physical state Solid Form Crystalline Color White Odor Odorless Odor threshold No data available No data available pН No data available Evaporation rate Melting point No data available Freezing point No data available Boiling point No data available Flash point No data available Auto-ignition temperature No data available Decomposition temperature No data available Flammability (solid, gas) No data available No data available Vapor pressure Relative vapor density No data available Soluble in all proportions Solubility Partition coefficient No data available (n-octanol/water) Viscosity No data available No data available Explosive properties Oxidizing properties No data available SECTION 10: Stability and reactivity Reactivity Hazardous reactions will not occur under normal conditions. Chemical stability Stable under recommended handling and storage conditions (refer to section 7 of the SDS) Possibility of hazardous No dangerous reaction known under conditions of normal use reactions Conditions to avoid Contact with incompatible materials. Do not use in areas without adequate ventilation. Incompatible materials Oxidizing agents SECTION 11: Toxicological information Information on toxicological effects May cause irritation to the respiratory system Inhalation Skin contact May cause slight or mild transient irritation Eye contact May cause slight or mild transient irritation Ingestion May cause irritation, nausea, vomiting, and diarrhea Direct skin contact may cause slight or mild transient irritation. Symptoms may include redness and Most important symptoms/effects, acute and itching. delayed Direct eye contact may cause slight or mild transient irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

	Inhalation of dust can cause respiratory irritation. Symptoms may include coughing and breathing difficulties.	
Ingestion may cause gastrointestinal irritation, nausea, vomiting, and diarrhea.		
Acute toxicity	No data available	
Respiratory or skin sensitization	No data available	
Germ cell mutagenicity	No data available	

Carcinogenicity	No data available
Reproductive toxicity	No data available
Specific target organ toxicity (single exposure)	No data available
Specific target organ toxicity (repeated exposure)	No data available
Aspiration hazard	No data available

SECTION 12: Ecological information

This product is not classified as environmentally hazardous; however, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

SECTION 13: Disposal considerations

Collect and reclaim or dispose of in sealed containers at a licensed waste disposal site. Since emptied containers may retain product residue, follow label warnings even after container is emptied. This material and its container must be disposed of in a safe manner. Dispose of contents/container in accordance with local/regional/national/international regulations.

SECTION 14: Transport information

No data available

SECTION 15: Regulatory information

No data available

SECTION 16: Other information
