

BUILDER SPEC SHEET CONTROL SYSTEMS

Handheld remote comes standard with all control systems. See back page for all features and options.

Use our water-resistant floating RF remote or simply run your fingers over the color dial of your smartphone app and give your pool a brand new look within seconds! Enjoy advanced color control & dimming options through Bluetooth Direct Point-to-Point.

The new PT-6000 has been designed specifically for the seamless conversion of an existing fiber optic pool lighting system to and S.R. Smith LED pool lighting system. The PT-6000 is a remote control power center for the S.R. Smith family of lighting products.

S.R. Smith's WIRTRAN is a small, simple 12VAC 30W power center operated by the included handheld wireless remote. It is a low cost solution for any 12VAC 30 watt max, low-wattage product that is single switch operated.

S.R. Smith's WPC-1 offers all the benefits of a small and simple power center. Operated by the included handheld wireless remote. It is a low cost solution for any 12VAC 30W or 120VAC 8 Amp remote control system. Time clock for single speed pump.

S.R. Smith's WPC-2 offers all the benefits of a small and simple 12VAC or 120VAC power center. Operated by the included handheld wireless remote. It is a low cost solution for any 12VAC 30W or 120VAC 8 Amp remote control system. Time clock for single or dual speed pump. 100 Amp subpanel.

FEATURES & BENEFITS

- Bluetooth control system
- Independent remote control available
- Operate your Treo lights or Color Light Stream products
- Operate via free iStar app with any Android or Apple product
- Dim Treo lights with a swipe of your finger (iStar only)
- No 12V transformer needed
- Operates up to 10 LED lights or Color Light Stream products
- Pre-programmed 6 color options and 2 color shows.
- Outdoor rated enclosure.
