SPECK Automation

for BADU® SwimJet Systems & Pool Equipment

SPECK X

The Speck Controller is the perfect way to operate your equipment pad. More than just automation for your SwimJet System, it can also control several other devices simultaneously.

Features

- Enclosure is manufactured from high quality NEMA 4X plastic material and is developed with safety in mind.
- All SPECK Controllers comes standard with GFCI protection.
- Designed for use with the LED touch button(s) or automated control system.
- The SPECK Controller can be accessed by your BADU® Connect App or optional LED touch button(s).
- Integrated WiFi Controller – compatible with the BADU Connect App.
- Connect three additional pieces of equipment in addition to the BADU SwimJet and Swimjet Lighting, such as water features like fountains, other pool lighting, or pump equipment. *(230V coil required)*
- The Model 762-EC can control up to three additional pieces of equipment (up to a total of 50 full load amps).
- NTRL Listed #E110213 *(complies with UL508A Standard)*
