

COMMERCIAL GRADE GRAB RAILS, HANDRAILS AND LADDERS

PROTECTED BY SPECTRA SHIELD™

Every stainless steel rail and ladder manufactured by Spectrum Aquatics® is protected by Spectra Shield™ for maximum corrosion protection. Spectra Shield™ is a proprietary coating formulated to protect stainless steel from moisture and harsh atmospheric conditions found in aquatic environments.

PROPER CARE & CLEANING INSTRUCTIONS

Unless maintained properly and regularly, your stainless steel rails and ladders are subject to corrosion. It is the responsibility of the end user to perform this maintenance. The manufacturer accepts no responsibility for corrosion resulting from incorrect or insufficient maintenance. Please follow the following guidelines to ensure a beautiful and functional stainless steel product:

DO	DON'T
<ul style="list-style-type: none">• Clean stainless steel frequently with non-chlorinated water.• Periodically clean stainless steel with Spectra-Clean™ to remove any free-iron contamination or rust spots and to ensure corrosion resistance. This may be required as often as once a day or as little as four times a year, depending on environmental conditions.	<ul style="list-style-type: none">• Allow stainless steel to come in contact with carbon steel tools.• Clean with chlorinated product or product containing acid (other than prescribed by the product manufacturer).• Use coarse abrasives like sandpaper.• Use steel wool to clean.
