

SOLAR BUBBLE COVER WARRANTY INFO

The solar cover warranty covers SEAM SEPARATION which is considered a manufacturer's defect. Cover damage due to improper chemical balance, improper handling, tears from sharp objects or things falling into the pool, rodents, or other similar situations are not covered under warranty. Solar cover warranties are pro-rated. They are as follows:

Standard Blue Solar Covers:

- > 08 mil: 4 Yr Warranty : 1 Yr Full
- > 12 mil: 6 Yr Warranty : 2 Yr Full

The warranties have two parts. For example the 8 mil Standard Blue cover has a 4 year warranty with 1 year full. Full means that if your cover is defective, and it is deemed to be covered under warranty, your cover will be replaced at no charge. After the full warranty period, the warranty is pro-rated and you will receive a certain percentage off the purchase of another cover.
